PROFESSIONAL EXPERIENCE

Hogarth Manila / WPP Production | Digital QA Analyst

December 2023 - Present

- Perform thorough quality assurance testing of HTML5, print/static, and moving image/video creative assets.
- Validate deliverables against established quality policies, procedures, and product requirements.
- Provide constructive feedback and guidance to developers, designers, and operators to support optimal product delivery.
- Generate and present detailed QA metrics and reports to track performance and identify areas for improvement.
- Provide ongoing support to development teams to maintain alignment with quality standards and best practices throughout the product lifecycle.

Hedy Philippines Inc. | QA Analyst

November 2020 - December 2023

- Test, verify, and confirm ad units against advertiser and publisher specifications.
- Test HTML5 and email products and participate in the development, implementation, and execution of test cases, criteria, and specifications.
- Provide feedback and assistance to developers regarding quality policies, procedures, and identified issues.
- Prepare reporting on QA-related metrics.
- Developed test cases for internally used software designed to measure team productivity and efficiency.

Google Operations Center | Customer Support Specialist - Dynamic Remarketing & Google Display and Video 360

November 2019 - November 2020

- Provided implementation and optimization recommendations for Dynamic Remarketing across websites and apps.
- Audited feed data, tags, campaign setup, remarketing lists, conversion tracking, and basket conversion.
- Guided account managers, advertisers, and creative agencies on Google Ads/AdWords and Google Analytics Dynamic Remarketing implementation.
- Reviewed client setups and recommended improvements based on established guidelines and frameworks.
- Monitored Dynamic Remarketing campaigns and assessed progress toward client goals.

Cognizant Technology Solutions | Senior Process Executive / DV360 Product and Support Specialist

June 2018 - March 2019; February 2014 - August 2015

- Scoped and collected customer requirements, applied product knowledge, and provided best-practice guidance for business and technology needs.
- Served as a point of contact for consultative technical support and strategic relationship management for online agencies and advertisers.
- Identified opportunities to improve internal efficiency, customer satisfaction, processes, and tools.

- Educated client end users on product usage and best practices.
- Worked with online advertising and ad-serving platforms including DCM, AdX, and YouTube.
